Celebrating  
27 Years of Excellence

## Sharing Happiness...

My Dear Daughters,

Happy Independence Day! We are celebrating 75<sup>th</sup> Independence Day. On this occasion we wish you all lot of happiness, success and great future.

Today I take this opportunity of explaining to you once again how the school project works. We have taken one year off and not given 7<sup>th</sup> standard scholarships last year as we wanted to study the impact that we have made on you in last ten years.

The impact study is over and we decided that we shall continue to support not only the new 7<sup>th</sup> standard this year but even the 8<sup>th</sup> standard who missed last year's scholarship.

CONGRATULATIONS.....!

But the impact study that has come out has thrown new challenges to all of us including you. Some of the challenges which concerns you, parents and students are that you do not study. You hardly know even one or two pages of your text books. You cannot even pass the simple test which is conducted by our Lila Poonawalla Foundation Selection Board. These are great drawbacks. You do not know English in some of the schools. As you progress in life when you go to colleges, or you study and you go for interviews after graduations, everywhere English plays important part in the life. If interviews are not conducted in English then you will get very less salary. Foreign companies who conduct the interviews in English only those girls get very good salary. Therefore, it is important that you should study also English. I am aware that your mother tongue is different. I am aware that we are in Maharashtra so Marathi is important. Yes, all this has to be done along with English. English should also be spoken rightly by you. Therefore, we conduct the classes and you must attend these classes.

The 2<sup>nd</sup> finding was that most of girls do not attend the training programs. Why? We spend a lot of time and efforts in making the training program for you. If you do not attend, the loss is yours and the chances are that you might lose the

माझ्या प्रिय मुलींनो,

स्वातंत्र्यदिनाच्या शुभेच्छा! आपण ७५ वा स्वातंत्र्यदिन साजरा करत आहोत. या निमित्ताने तुम्हा सर्वांना खूप आनंद, यश आणि भविष्यासाठी शुभेच्छा.

आज मी तुम्हाला पुन्हा एकदा शाळेचा प्रकल्प कसा कार्य करतो हे समजावून सांगण्याची संधी घेतली आहे. शाळेच्या प्रकल्प अभ्यासासाठी आम्ही एक वर्षाची गॅप घेतली आणि गेल्या वर्षी ७ वी साठी शिष्यवृत्ती दिली नाही कारण आम्हाला गेल्या दहा वर्षात तुमच्यावर झालेल्या प्रभावावर अभ्यास करायचा होता. प्रभावाचा अभ्यास संपला आणि आम्ही ठरवले की, आम्ही या वर्षी केवळ

नवीन ७ वी इयत्तेलाच नव्हे तर गेल्या वर्षीची शिष्यवृत्ती चुकलेल्या ८ वी इयत्तेलाही सपोर्ट करत राहू...**अभिनंदन !**

पण जो प्रभाव अभ्यास समोर आला आहे त्याने तुमच्यासह आपल्या सर्वांसमोर नवीन आव्हाने उभी केली आहेत. तुमच्यासाठी पालकांना आणि विद्यार्थ्यांशी संबंधित पहिले आव्हान म्हणजे तुम्ही अभ्यास करत नाही. तुम्हाला तुमच्या पाठ्यपुस्तकांची एक-दोन पानेही माहित नाहीत. आमच्या लिला पूनावाला फाऊंडेशन मंडळाने घेतलेली साधी परीक्षाही तुम्ही पास करू शकत नाही. हे मोठे दोष आहेत. काही शाळांमध्ये तुम्हाला इंग्रजी येत नाही. जेव्हा तुम्ही कॉलेजमध्ये जाता किंवा तुम्ही अभ्यास करता आणि पदवी घेतल्यानंतर मुलाखतीसाठी जाता तेव्हा तुम्ही आयुष्यात प्रगती करता, सर्वत्र इंग्रजी भाषा जिवनात महत्वाची भूमिका बजावते. जर मुलाखती इंग्रजीत घेतल्या नाहीत तर तुम्हाला खूप कमी पगार मिळेल. परदेशी कंपन्या ज्या मुलींच्या मुलाखती इंग्रजीत घेतात त्यांना खूप चांगला पगार मिळतो. म्हणून, आपण इंग्रजी शिकणे देखील महत्वाचे आहे. तुमची मातृभाषा वेगळी आहे याची मला जाणिव आहे.

मला माहिती आहे की आपण महाराष्ट्रात रहात आहोत. त्यामुळे आपल्या येथे मराठी भाषेला महत्त्व आहे. होय, हे सर्व इंग्रजीबरोबरच करावे लागेल. इंग्रजीही तुमच्याकडून योग्य पद्धतीने बोलली गेली पाहिजे. म्हणून आम्ही वर्ग आयोजित करतो, आपण या वर्गांना उपस्थित राहणे आवश्यक आहे. दुसरा निष्कर्ष असा होता की, बहुतेक मुली प्रशिक्षण कार्यक्रमांना उपस्थित रहात नाहीत. का? तुमच्यासाठी प्रशिक्षण कार्यक्रम तयार करण्यासाठी आम्ही बराच वेळ आणि प्रयत्न खर्च करतो. तुम्ही उपस्थित न राहिल्यास, नुकसान तुमचेच आहे आणि तुम्ही शिष्यवृत्ती गमावण्याची शक्यताही आहे कारण आम्ही शिष्यवृत्ती पुढील इयत्तेत सुरू

# Sharing Happiness...

scholarship because you will be not able to pass the test which we will conduct every year from 7<sup>th</sup> standard onwards before we continue the scholarship to the next grade. So it is important that you attend the training programs also. Parents are again requested along with teachers & Principals to ensure that the child attends the training programs. Now that covid has subsided which is a very good sign but do not forget that covid has not gone. Covid is still among us and the Covid is increasing specially in Maharashtra. Maharashtra has got a highest rate of covid increase about 4000 cases and out of them 500 are already hospitalised and one has died. Take all the precautions possible and mask should be worn though we say that it is not compulsory. Therefore, I still advice you to continue wearing the mask all the time. If you have any problems with yourself then please come to the office. Come and meet MOM and DAD, and we will try to solve your Difficulties. We have trained and dedicated staff. The staffs are trained to take care of your needs and they are working school-wise. Take maximum help required

I am very sad that we conducted the test for 7<sup>th</sup> standard who were recommended by the Principals and we found some of these girls did not pass the test. The major difficulty was that they did not understand mathematics, Science & English language at all. They even did not know how to subtract, how to divide and they failed.

Because we want to help the needy girls, we arranged to have another test carried out after your teachers gave us assurance that they will upgrade you on this test. After the 2<sup>nd</sup> test also few girls could not score even 35% mark which was minimum required. 35% marks are not very big marks. It is 1/3<sup>rd</sup> of 100%. Then we reduced the acceptance limit from 35% to 30% and could take few more girls. This happened only in those schools where English is not taught and these are Marathi or Urdu speaking schools. I request to take extra tuitions and see that they know Mathematics, Science and English they were not able to do it. They do not attend training programs. We have tried to do the test in Marathi so that you can pass. This year we will be adding girls in 7<sup>th</sup> standard and 8<sup>th</sup> standard. We have now 13 schools with us and I wish you all the luck possible. I once again request you that please do attend the training programs which will be on Mathematics, Science & Spoken English. These will be conducted right through for 10 years and you must take maximum advantage of these training programs. You will find that you are empowered and you can stand on your feet and everybody says that she is "LILA Junior" or when you go to college, a "LILA Girl."

I request all Principals and Teachers also to please help the LILA Juniors so that the school name comes out on the top of the list.

With lots of love and regards to you,  
**DAD**

ठेवण्यापूर्वी दरवर्षी ७ वी पासून परीक्षा घेणार आहोत. ती परीक्षा तुम्ही पास करू शकणार नाही. त्यामुळे तुम्ही प्रशिक्षण कार्यक्रमांनाही उपस्थित राहणे महत्वाचे आहे. शिक्षक आणि मुख्याध्यापकांसह पालकांना पुन्हा विनंती केली जाते की मुलींनी प्रशिक्षण कार्यक्रमांना उपस्थित रहावे.

आता कोविड कमी झाला आहे जे खूप चांगले लक्षण आहे. पण कोविड गेलेला नाही हे विसरू नका. कोविड अजूनही आपल्यामध्ये आहे आणि विशेषतः महाराष्ट्रात वाढत आहे. महाराष्ट्रात कोविडचे सर्वाधिक ४००० रूग्ण आहेत. त्यापैकी ५०० आधिच रूग्णालयात दाखल आहेत आणि एकाचा मृत्यु झालेला आहे. शक्य तितकी सर्व खबरदारी घ्या आणि मास्क घालणे अनिवार्य नाही असे आम्ही म्हणतो. म्हणून मी तुम्हाला अजूनही सल्ला देतो की तुम्ही नेहमी मास्क वापरत रहा. तुम्हाला काही अडचण असेल तर कृपया कार्यालयात या. मॉम आणि डॅडना भेटा, आम्ही तुमच्या अडचणी सोडवण्याचा प्रयत्न करू.

आमच्या कडे प्रशिक्षित आणि समर्पित कर्मचारी आहेत. तुमच्या गरजा पूर्ण करण्यासाठी कर्मचारी प्रशिक्षित आहेत आणि शाळाविनाहाय काम करीत आहेत. त्यांची जास्तीत जास्त मदत घ्या. मला खूप वाईट वाटतं की आम्ही ७ वी इयत्तेसाठी चाचणी घेतली ज्यांची मुख्याध्यापकांनी शिफारस केली होती, आम्हाला असे आढळले की यापैकी काही मुली परीक्षेत उत्तीर्ण झाल्या नाहीत. मुख्य अडचण ही होती की त्यांना गणित, विज्ञान आणि इंग्रजी भाषा अजिबात समजत नव्हती. त्यांना वजाबाकी कशी करायची? भागाकार कसा करायचा? हे देखील कळत नव्हते. त्यामुळे ते अयशस्वी झाले. आम्हाला गरजू मुलींना मदत करायची आहे, त्यामुळे तुमच्या शिक्षकांनी आम्हाला आश्वासन दिले आहे की ते तुम्हाला ते अपग्रेड करतील. आम्ही परत एक चाचणी घेतली. दुसऱ्या परीक्षेनंतरही काही मुलींना किमान आवश्यक असलेले ३५% गुण देखील मिळवता आले नाहीत. ३५% गुण हे फार मोठे गुण नाहीत. ते १००% पैकी एक तृतीयांश आहेत. नंतर स्वीकृती मर्यादा ३५% वरून ३०% पर्यंत कमी केली आणि आणखी काही मुली घेतल्या. ज्या शाळांमध्ये इंग्रजी शिकवले जात नाही आणि त्या मराठी किंवा उर्दू शाळांमध्येच हे घडले. मी अतिरिक्त शिकवण्या घेण्याची विनंती करतो आणि त्यांना गणित, विज्ञान आणि इंग्रजी विषय जे ते करू शकत नाहीत त्यांना ते शिकवा. ते प्रशिक्षण कार्यक्रमांना उपस्थित रहात नाहीत. तुम्ही उत्तीर्ण व्हावे म्हणून आम्ही मराठीत परीक्षा घेण्याचा प्रयत्न केला. यावर्षी आम्ही ७ वी आणि ८ वी च्या मुली घेणार आहोत. आमच्याकडे आता १३ शाळा आहेत. मी तुम्हाला शुभेच्छा देतो!

मी तुम्हाला पुन्हा एकदा विनंती करतो की कृपया गणित, विज्ञान आणि स्पोकन इंग्लिश या विषयावरील कार्यक्रमांना उपस्थित रहा. हे प्रशिक्षण कार्यक्रम १० वर्षांसाठी आयोजित केले जातील आणि तुम्ही या प्रशिक्षण कार्यक्रमांचा जास्तीत जास्त लाभ घ्यावा. तुम्हाला दिसेल की तुम्ही सक्षम आहात आणि तुम्ही तुमच्या पायांवर उभे राहू शकता. प्रत्येकजण 'लीला ज्युनियर' असेल किंवा जेव्हा तुम्ही कॉलेजला जाता तेव्हा तुम्हाला 'लीला गर्ल' असे म्हणतील.

मी सर्व मुख्याध्यापकांना आणि शिक्षकांना विनंती करतो की, कृपया 'लीला ज्युनियर' ना मदत करावी जेणेकरून शाळेचे नाव यादीत सर्वात वर येईल.

तुम्हाला खूप प्रेम आणि अभिवादन,  
**डॅड**

We come up with a unique theme in every LPF Magazine. As a part of this magazine, we organized an Essay competition amongst Lila Juniors. Girls were requested to write an essay on given topics viz. 'Life without Internet', 'My dream career' & 'Book review'. Thanks to Lila Girls across all schools for their enthusiastic participation in this competition.

While writing an essay about 'My dream career', girls were supposed to think about their career based on their own inclination. Career selection cannot be done based on parents' or friends' wishes as it is not just about earning money in future. You will be spending 8 hours everyday after 5 to 7 years in your favourite career option. Most of the girls intend to pursue Software Engineering since they are keen on working on computer. If you are keen observer, you will find that each & every office uses computer systems. Hence we need excellence in operating a computer systems or software applications. Not everyone has to be a software engineer. Number of girls intend to pursue medical education to become a doctor. However before selecting such career option, one need

to have keen interest in Physics-Chemistry-Biology. If you are not passionate about reading books, you may have to select other career options. You may have to look at other options in para-medical field since pursuing Medical education involves too much cost. There are number of unconventional options in career as well. A Lila girl intends to start food business, which is appreciable. Select 'Road less travelled' and spend more time in reading books relevant to specific subjects. You need to think about couple of options handy as a back up plan, rather than sticking up to one dream career.

While writing an essay about 'Life without Internet', girls were supposed to use imagination power. It was missing in most of the essays. Hence it will be preferable to practice writing essays on topics like 'If I meet a student from school in China', 'If I become a school Principal', 'Life on Moon', etc. Essays are required to be written based on your own thoughts, imagination, thinking power. One need to read a lot to write an essay with a content. Increase your word power by conscious efforts. Reading newspaper everyday will help you to be aware of current affairs in & outside India. Very few students wrote a book review, since most of students are not reading any books. You need to spend atleast one hour every day in focused reading.

If you fail to plan, you plan to fail. Hence keep track of number of hours you spend in reading every day.

**By- Suhas Kirloskar**

# How to Study ?

ध्येय आहे कष्ट साध्य म्हणूनच घ्या ध्यास, करा यत्न सायास यश लाभेल अंती खास जीवनात यशस्वी व्हायचे असेल तर ध्येय निश्चित असावे. ते ध्येय पूर्ण करण्यासाठी त्याचा ध्यास घेतला, कष्ट घेतले, प्रयत्नांची पराकाष्ठा केली तर जीवनात यश नक्कीच मिळते.

आजकालच्या विद्यार्थ्यांनी ध्येय पूर्ण करायचे असेल किंवा जीवनात यशस्वी व्हायचे असेल तर प्रथम त्याने अध्ययनशील बनले पाहिजे. अभ्यासाचा ध्यास घेतला पाहिजे, केवळ परीक्षेसाठी अभ्यास असा छोटासा विचार न करता जीवनासाठी अभ्यास असा व्यापक दृष्टीकोन ठेवावा. तरच यशाचा मार्ग सुकर होईल. अभ्यास कसा करावा? अभ्यासाचे तंत्र, सूत्र काय आहेत? याबाबत आपण या लेखातून विचार करणार आहोत. अभ्यास हा नेमाने व रोजच्या रोज मनापासून करावा त्याचं ओझं वाटता कामा नये. अभ्यासात आनंद निर्माण केला तर त्याचं ओझं वाटणार नाही. म्हणजेच अभ्यास आनंदाने करावा. आपण जो अभ्यास करतो तो घोकमपट्टी किंवा परीक्षेपूरता स्मरणात ठेवून विसरणारा असू नये. तर तो समजून उमजून सखोल मूळापर्यंत जाणारा असावा. अभ्यास हा नियोजनपूर्वक योग्य पध्दतीचा अवलंब करून व विविध क्लुप्त्या योजून असावा. रोजच्या जीवनात अभ्यासाचे काय अनुभव येतात ते लक्षात घेऊन अभ्यास मनापासून करावा.

अभ्यासाविषयी महत्वाची सुत्रे बारकाईने प्रत्यक्ष कृतीत उतरवावीत. म्हणजे नेमकेपणा, नेटकेपणा साधता येईल.

## अभ्यासाची महत्वाची सुत्रे

१) अभ्यासाचे नियोजन म्हणजेच वेळापत्रक तयार करावे, त्या वेळापत्रकानुसार विषयाची निवड व्हायला हवी.

२) विषयानुसार अभ्यास पध्दती बदलत्या हव्यात, भाषा विषयात अवांतर वाचन, शास्त्रात प्रयोगाला, भूगोलात-परिसर अभ्यासाला, नकाशा वाचनाला, गणितात भरपूर उदाहरणे सोडविण्यासाठी अधिक प्राधान्य हवे हे ध्यानात घेणे.

३) निरीक्षण, सूक्ष्म नियोजन, अवलोकन, अनुभवग्रहण, मनन, चिंतन, स्मरण, आवृत्ती, उपयोजन या अभ्यासाच्या पध्दती

आहेत. केवळ वाचन, लेखन, पाठांतर, विविध विषयांचे व्हिडीओ पाहणे याच पध्दतींचा सराव न करता वरील सर्व पध्दतींचा विषयानुसार अवलंब करून अभ्यासात नावीन्य, सखोलता आणि परिपूर्णता आणावी लागते.

४) केवळ वर्गपाठ, गृहपाठ, परीक्षा तयारी म्हणजे अभ्यास न मानता अभ्यासातील विविध संकल्पना समजून घेण्यासाठी प्रयत्नशील बना.

५) पाठ्यपुस्तकातील नेमलेले पाठ वारंवार वाचा, नोट्स काढा, महत्वाचे मुद्दे शोधा, संदर्भ शोधा, प्रत्येक घटकांचे शंका निरसन समजून घ्या. अवांतर वाचन करा, एक सूची तयार करा. त्व ते तयार करा, प्रश्नपत्रिका सोडवा, ई लर्निंग माध्यमाद्वारे अभ्यास करून म्हणजेच गुगल, इंटरनेट यावरून अनुभव वेचा. श्रवणभक्तीने बहुश्रुत व्हा. आकलन व अभिव्यक्ती या क्रिया वारंवार करून अभ्यासाच्या लांबी, रूंदीपेक्षा सखोलता यावी यासाठी प्रयत्नशील बना.

६) गटचर्चा, प्रश्नमंजुषा, प्रकल्प, उपक्रम, शैक्षणिक सहल, प्रदर्शन (विज्ञान, भूगोल, कला), हस्तलिखित, कात्रणे जमवणे या गोष्टींचाही सराव करा.

७) शब्दसंपत्ती वाढवा. शब्दकोश, संदर्भ ग्रंथांचा वापर करा. सुविचार, सुभाषिते याचे वाचन, लेखन, पठन करा.

८) शुध्दलेखन, हस्ताक्षर, सुलेखन याबद्दल योग्य मार्गदर्शन घेवून लेखनाचा सराव करा. अन वेळेचे भान ठेवून लिहिणे हाही एक अभ्यासाचा गुरुमंत्रच आहे.

९) अभ्यासाचा कंटाळा नको, एखाद्या नावडत्या विषयाकडे पाठ आपण का फिरवतो? याचे आपण स्वतः मर्म जाणून घेतले पाहिजे.

१०) रिकामपणाच्या वेळी आवडता छंद जोपासल्यामुळे, आवडते खेळ खेळल्यामुळे तर या गोष्टीदेखील अभ्यासाला पुरक व पोषकच होतात हे ध्यानात ठेवा.

वरील सुत्रांप्रमाणे अभ्यास केला, तंतोतंत पालन केले तर तुम्ही नक्कीच उच्चल भविष्याचा शिल्पकार बनू शकता यात शंकाच नाही.

# My Dream Career

My dream career is to become an archaeologist. I heartily wish to become an archaeologist.

Archaeology means the study of human history. History subject has always been 1 of my favourite subject. And I feel like it's really very important for all of us to know how we came to

be. We really should know the history of crazy human architecture.

In today's world people often hate history, subject. Which is awful. They hate history just because they consider their self more developed then people from past. So if in future I become an archaeology my intention is to make people realize that history aren't boring.

But the question is why do I feel that history aren't boring. So See the world we live in is full of mysteries and crazy secrets. few them are revealed whereas majority of them is still not. We all know about The Great pyramids Pyramids'. And some we all find it kinda cool. But have you ever imagined that in how did they made it. Like the stone used for making them is so heavy and rare. that today's technology can only bear it. But Pyramids were build like 2000+ years ago years where ago and that time people weren't even that developed or progressed. Pyramids were buit at in Itzal the country of desert. Those sand stooms and all how did they made it?

Being an Indian we all love Taj Mahal. Moghul emperor Shajahan build it. But In the memory of his beloved wife Mumtaz. The structure of Taj mahal, the stone of Taj Mahal, the shocking & crazy illusions of Tajmahal change in colour of Marbel and I because of change in day of day, night, morning, every evening, etc .Isn't it interesting?

Macchu Picchu Peru is a nature gift. The incas were ruling there back in time. The Incas started building the "estate" around AD 1400 but abondanded it is an official site of inca rulers. Macchu Picchu is a Pre-columbian 15th century Inca site. Macchu Picchu Peru is build above the see. Seeing it in pictures gives makes us give the wow look imagine seeing in real. Macchu Picchre Peru was unknown to the world until a Spanish man found it. The sec it was revealed On the Internet people all around the world voted

to declare it as a one of the seven wonder of the world", the building at the center is build with the classical Inca Style. The Incas were masters in this technique. The technique is ashsar. It is said that they were so perfect in this technique that not even a single blade of grass can fit in between the stones.

Not only these many more crazy past architecture are there which are enough to blow our minds. The Great wall of Chine, the coliseum at Rome, Petra at Jordan are just So cool. I have

I have so many inspirations but But first is my mother. She is definitely not an archaeologist but is a single. mother. She works at a job an has always inspired me with that fact that womens should be financially independent . No matter what you always shine through. The Sundar Pichai he said that my father spent in whole a ticket to us" And now we all know he is ruling GOOGLE. Elon Musk, Chisistie Chirstiano, Bill Gates, APJ Abdul Kalam also have an incredible and inspiring story.

If I become an archeologist my intentions is to make everybody realize that history literal aren't boring. I am gonna study many past architectures.

See if I become an archaeologist I will have to travel across the world. For which I am working hard on my English and searching for courses to learn different language. But now as I focusing more on studies.

To become an archaeologist we also need to have general knowledge. Then the power to climb a mountain, dig o huge whole maybe study skeleton and much more.

Thank you so much for Scholarship and giving me the opportunity to study. Also thank you for organizing the Essay Competition and letting me express my views.

I am also looking for colleges of Archaeology and on weekends I either visit museum or just go through my history textbook or search on google like the greatest empire in history. etc.

# My Dream Career

माझे स्वप्न नोकरी /व्यवसाय हे खरे बोलता की, 'जेवढी तुम्ही तुमच्या स्वप्नांना उर्जा देताल, तेवढे चमत्कार घडतात. जेव्हा आपण भितीला दाद देतो. तेवढे आपले स्वप्न मजबूत होतात. आपण लहानपणी खूप स्वप्न पाहिलेली

असतात. जसे मुलांना चांगले गुण मिळवून पास व्हायचे असते. असंच मी एक स्वप्न पाहिल आहे. ते म्हणजे लेखिका व्हायचे. आता तुम्ही म्हणाल 'लेखिका' लेखिकेत कुठे करिअर असते का? पण माझ्या मते लेखिकेत सुध्दा करिअर असते. प्रत्येक गोष्टीत आपण करिअर घडवू शकतो.

मला वाचन करणे खूप आवडते. रिकामा वे असला तर मी वाचन करते. माणसाच्या जीवनात वाचन हे खूप महत्वाचे मानतात. त्याचे कारण पण योग्यच आहे. माणूस जितका वाचन करेल तेवढी त्याची बुध्दीमत्ता वाढेल. वाचनामुळे माणसाला आनंद मिळतो.

लेखिका होण्यासाठी माझ्यात सर्व गुण आहेत असे मी म्हणणार नाही पण लेखिका होण्यासाठी जे गुण लागतात ते नक्कीच माझ्यामध्ये आहेत. लेखिका होणे सोपे नाही पण अस म्हणतात ना इच्छा असेल तर मार्ग दिसेल. याच्यावर विश्वास ठेवून मी पुढे जात आहे. अशी कोणतीही व्यक्ती नाही जो चुकला नाही. मी पण तशी चुकले. अगोदर शब्दांची मांडणी कशी करावी? हेच मला कळत नव्हतं. मग हळूहळू मला समजल की, 'अपयश' ही यशाची पहिली पायरी असते. नंतर मला शब्दांची जुळवा जुळव करता आली व आता मला कळाले आहे की मला आता शब्दांची मांडणी योग्य प्रकारे करता येते.

माझ्या मैत्रिणी म्हणायच्या की, करिअर या विषयात तु उत्तम पोलिस होऊ शकते कारण तुझी उंची चांगली आहे. तु खूप जोरात धावते. तु आपल्या शाळेतील एक उत्तम धावपटू आहेस. आणि करिअर कधी लेखिकेत होऊ शकते का? पण मी त्यांच न ऐकता माझं स्वप्न म्हणजे लेखिका व्हायच स्वप्न कायम ठेवलं. मला लेखिका व्हायचे आहे व खूप कादंबऱ्या लिहून प्रकाशित करायच्या आहेत. मला लिहिण्याची आवड आहे. मी शब्द संवादाच्या बाबतीत खूप चांगली आहे. माझ्या लिहिण्याच्या आवडीने मला माझ्या ध्येयापर्यंत आणले आहे. या सर्व गोष्टीत माझे पालक माझ्या सोबत आहेत. माझे बाबा म्हणतात की, 'तु कोणताही व्यवसाय कर, मी तुझ्या कायम पाठीशी आहे. मी एक शांतप्रिय व्यक्ती आहे. मला खूप बोलता येत नाही पण माझ्या मनातल्या गोष्टी मी एका कागदावर व्यवस्थित मांडू शकते. मी घरी एकटी असल्यावर मला पुस्तके वाचायला खूप आवडते. मला डॉ.बाबासाहेब आंबेडकरांची, ज्योतीराव फुले यांच्या पराक्रमांच्या गोष्टी वाचायला खूप आवडते.

प्रत्येकाच्या जीवनात कोणीतरी प्रेरणा देणारे असते. माझ्यापण जीवनात सुप्रसिध्द लेखिका गिरीजा कीर या आहेत. त्यांची शब्दांची मांडणी उत्तम असते. त्या खूप चांगल्या लेखिका आहेत. त्यांची विविध पुस्तके मी वाचली आहेत. त्यांच्यावर मी एक पुस्तक काढत आहे. गिरीजा कीर यांच्यामुळे मला लिहिण्याचे महत्त्व कळले आहे. व मी आता पक्क केल आहे की मी लेखिका होणार आहे. लेखन माझ्यासाठी आवड बनली आहे. ही आवड आता व्यवसाय बनवण्याची इच्छा आहे.

# My Dream Career

Everyone has a Dream to become something or achieve something in their life. Some wants to become pilot, Doctor, Engineer, Teacher, Athlete etc. I also want to become something and achieve something. I want to become. an Engineers, eithers Computer Science or IT. But it's fixed in my mind that I want to go go in IT field only. Reasons I want to in IT fields are i) it's an never ending field, every

new Technologies are updating ii) if I go in IT field I will be learn more and new things reads related to computer. iii) It's my passion I love on computer subject.

I know I have to become only one thing or I have to choose only one profession. But I don't want to stop there, apart from my profession I want become of learn many things. Like all languages of Computer. They are C, C++, Jawa, python, S&L, HTML, Visual Basic and many more. I want to learn small and basic things of Computer. When I was small I had joined Computer Classes of Basic Course. I had participated in many computer Activities of

Our school. I meant to gain more and more knowledge. It is a vast field. It includes, IT Engineer, IT Analyst, Software Engineer, Mechanical Engines, Data Scientist, Cloud Computing. It can go in any of these only If a I study well in 12th. and get good marks, If I choose right path means taking correct decision about our carrier. If any course I take I will to have 3 years to study. Then I will be Settled if I Crack Interview Company. I also have another dream.

To get good Job, fulfil all wishes of parents and I want to get a 3.BHK flat for my Grandmother and a beautiful Car for my parents. That's they helped me a lot in achieving my real and guiding & and supporting me. I also want to thanks Lila Poonawalla Foundation' because they organise many not many large guidance session and motivated me.

We should not only Dreams in our sleep but we have to turn out our dream into reality. That should be motive. And even if I start become something in my life. My first priority will be my family because without them and their support I am incomplete. Some people reach their goal and stop there but no we shouldn't because SUCCESS IS A JOURNEY NOT DESTINATION.

# My Success Story

My Journey with Lila Poonawalla Foundation started in 2011, when I received the LPF Scholarship in 7<sup>th</sup> Std in the first batch of school project “Tomorrow Together”. Coming

from a financially challenging background as my parents had lost their jobs, it would not have been possible for them to educate me and my younger brother at the same time. Receiving this scholarship was like a boon for me where I could see a way of turning my dream into reality, of getting proper formal education.

I got a huge exposure to the scientific world at an early age in high school, through the science exploratory workshops that were arranged for us by LPF, this developed my interest towards studying life sciences. I cleared the SSC board exam with good grades and pursued my further education in science field in junior college. After clearing my 12<sup>th</sup> HSC board exam and knowing about my interest and abilities, I decided to pursue my graduation in 'Biotechnology' from 'Nowrosjee Wadia College of Science'. I received various awards and certificates during graduation for making working models and poster presentations. Also, my involvement in different voluntary activities developed my interest towards learning management, and getting adapted to the dynamically changing technology, was need of the hour, this made me learn various computational skills and make myself more tech-savvy. Later, I completed multiple certification courses such as MS excel-beginner to advance, digital marketing, etc. from different, free online platforms, and attended webinars and seminars on topics related to my interest and academic subjects to prepare myself for job interviews. However, after completion of my degree in 'Biotechnology' I wanted to study further and complete my masters. Therefore, I decided to choose a course which was a blend, aligned with my interest

of learning management as well as biotechnology. I gathered all the relevant information needed and decided to pursue MBA (Pharma-Biotech) and after clearing the Aims Test for Management Admissions (ATMA) entrance exam, secured admission in the Savitribai Phule Pune University, Department of Management Sciences (PUMBA).

In (PUMBA) I was part of the 'Placement Cell' which gave me an opportunity to make several professional connections and gave me a huge exposure to the corporate world. Towards the end of first year of my MBA, I cleared the interview and got selected in 'Geolife Agritech India Pvt Ltd', for my internship as a Digital Marketing Intern. I had a great learning experience during my internship, and also got an opportunity to showcase my learnership skills when I got a chance to lead a team of 8 interns. During my MBA course, I faced several challenges related to work as well as academics, and I overcame them by approaching the right people for help. At the end of my MBA (Pharma-Biotechnology) course I was able to clear all the interview rounds and secured placement in 'Global Market Insights Research Pvt Ltd', as a Research Associate.

I was able to make an informed career choice only due to the constant training and proper timely guidance which I received from my parents, professors and the LPF family. Also, I learned the importance of networking with people for proper guidance and help. Today when I look back at my journey from the beginning, I would like to thank the entire LPF family for extending their endless support and playing a vital role in my success till date, it is because of this family, Mom and Dad, that an ordinary student like me dreams to become an extra ordinary working professional. However, this is just the start of my career and I am still in process to climb my career ladder by learning new things each day, and growing personally as well as professionally.

All the best to all the LILA Sisters for courageously chasing your dreams!

**By- Priti Jagtap LJ 2011, LS 2015, LG 2017**

## "Wings of Fire"

Reading books is one of the best habits could have. If you read books, it helps you relieve your stress and relax your mind. If you don't like reading books, then you might have not found the right book for yourself

yet. Reading books is also one of my hobbies. I read books to refresh my mind daily. One of my favourite books that I am going to give review about is "wings of Fire" this book is already very famous as it is written by Greatest of all time Dr. A.P.J. Abdul Kalam, and co-written by Prof. Arun Tiwari well known missile scientist and colleague of Dr.A.P.J.Abdul Kalam.

The speciality of this book is that, it was written by Dr. A.P.J Abdul Kalam and his colleague about Dor. A.P.J Abdul Kalam's life moments, journey, his struggles and the hardships he had to go through dreams / goals. This book is an autobiography of Dr. Ail. J Abdul Kalam in which he narrates his life story. This book teaches us so many things about life and how to deal with everything that comes It is such an inspiring book that reading it will give you a motive and an idea to go ahead in order to achieve your dreams / goals. It contains so many messages and values that one should have. I myself am very fond of this book and reading it makes me realize that I can do anything and nothing is impossible if you try and believe in yourself.

This book Contains a very well- detailed description of simple boy bom in a family who had

many simple and goals to achieve dreams but, with dreams he also had a plan an how to achieve his goal and this made him the person he was. This book gives so much knowledge and good things than anyone can extract. This book teaches us to have positive attitude towards life, be it

It teaches us how do we deal with failures keep going. The authors try give a message to the young generation of having dreams and making preparations in orders for you to achieve them. They want everyone to dream big and be capable and responsible person in their lives by giving an example of themselves throughout this book.

The author by narrating his life story evokes the readers mind to realize that & what one 96 capable of doing. They believe that like them everyone in this world is born with potential and strength with a purpose to make a tangible change the world. The authors writes how be successful person. All this is beautifully Captured in this book.

This book was co-authored by a well known missile Scientist and colleague of Dr. A.P.J. Abdul Kalam, Mr. Arun Tiwari

The Wings of Fire is and incredible and inspiring book that everyone should need. This book has inspired me a lot.

**Mrunal Pradeep Bhosale**  
**C.E.S'S Villow Poonawalla English Medium School**

You can't be a good writer without being a good reader. Reading is what helps you to Analyse. What makes a good book. So let me introduce the world where magic execute and where miracles happens. YES !!

## THE HARRY POTTER SERIES

Harry Potter is a series of novels of 7 books written by J. K. Rowling. It is full of magic full of fantasy and it takes the a journey to a whole new world! If you are not a fiction lover so it can be a bit overhyped for you. But, if you love to read fiction and fantasy then this This is just an AMAZING book, and the language too is easy! It is made for kids. so obviously it is an easy one to start with for the beginners.

The series contains the story of an " orphan boy, who lives with his aunt & unde. who used to treat him badly & but something unusual happens on his 11 the birthday, where he receives a latter to get admission in the Hogwarts school of Witchcraft & Wizardy, and from the neal adventure begins! He is the protagonist, so basically, the story involves. But you can find a lot of thing on over there. The story. There goes a fight between the protagonist - Harry Potter & the antagonist – Lord Voldemort. There this principal of the school; Prof. Dumbledow who is a big a big fan of love, who beelines in love, and the power of love. There is this line book, where Dumbledore tell Harry that he is different from Lord Voldemort' because he has the love of his mother. Voldemort wants to overpower the magical world but when he tried to kill Harry's parents he transformed his powers to Harry and couldn't kill him because Harry's mother died saving Harry. So, Voldemort want to kill Harry and all the people against him to overpower the magical as well as normal people's whom they call muggle's world.

Two things which I loved the most about the book is one the detaile! T.K. Rowling has done such a great job in writing down the details. There are things or character in the book which doesn't have much significance to the story but they add so much

to the atmosphere of the book so much to the feeling of the book, that you can't resist imagining them. And second it's not just fantasy or fiction to be honest, you get to learn a lot ! for escample, Dumbledore has said so many great things that you just can't imagine. once, he said, " Happiness can be found even in the darkest of time but only if one remembers to switch on the lights. You will be like woah !' only I coin implement them here!

Talking about the series, the first book is all about building up, the second one is quite emotional, the third one is full of mysteries and fourth one is full of adrenaline rush. ! In the last book you get to experience everything from all the 6 books, But unfortunately, the series comes to an end And you are if left out in this real world. Where no Hogwarts, no Harry, no Dumbledore, no Dobby, no Ron & HERMITONE exists!! But being a potter head the series never ends and there is this new book. The cursed child which takes us back to the World of Magic.

The writer's writing style, is whimsical and rhythmic! The flow is quite good. Her humour is witty a dry, but many of new sentences seems quite casual.

Heroes are not the ones who makes excuses and treads on their path of success. J.K. Rowling is both an inspirational and motivational writer who was not resilient when faced with problems. She struggled a lot & now. You can see she is a billionaire just by writing books!

# Secrets of My Success

**Hello !** I am Srushti Sitaram Temgire from Mahatma Gandhi Vidyalaya Chandoli B.K. Recently I have completed my 10<sup>th</sup> with percentage 93.80%. We all know that, Our future decisions are all based on our 10<sup>th</sup> marks.

So we assumed that 10<sup>th</sup> is most important year for the students. And I agreed to that. When I was in 9<sup>th</sup> Std / class, there was no school and colleges going on due to the covid-19. Even online sessions were there which was conducted from our school but in that case I was facing network issues mine family background is not even good economically that they would give me a another phone to attend the sessions.

I was so tensed that how can i give the exam. So, mine that whole year gone in lockdown due to that base of my study remains weak, Though lockdown was there although Lila Poonawalla Foundation didn't leave us alone. They conducted training sessions to bridge our gap. They recognize that girls are not able to attend the session due to unavailable of smart phones. So they distribute the tabs in girls. So it helped me lot in my studies.

I have attended all training sessions. Mine half year of 10<sup>th</sup> passed online. I was very clear that from first that I have to do self study then after only something will going to work . Then i started my selfstudy.

Daily, I was reading books for 4 to 5 hours that helped me lot to understand the concepts and help me to increase my concentration on study. I made my timetable for study. When online sessions were there then also i mentioned it in my timetable. According to that only i did study. I'm belongs to that family who has background not good economically. Even though it was my 10<sup>th</sup> i never refused to do works and house hold works.

After school began, but i didn't changed my habit of reading. My school was about 3 to 4 hours. Whatever i learnt in school that i was analyzed. Daily i work up at 3:30 am, at so whatever we read at the morning. We remember all that things point to point.

So, I'll suggest you all to read th books again and again. Analyzed your mistakes. I'll advised you that never do copy-paste. Understanding con... is one of the important thing in your study. One more thing i wanted to tell you that just solved previous years question papers. Just go through the all questions so you will get some idea that how the questions looks like.

You will have some doubts regarding to the topics. So please go to your teacher and ask them without any hesitation.

My school was so far from my house. sometimes i got late but dad gave me cycle due to that i reached soon to school. And i didn't miss any class. So don't miss any class or sessions, ask them your doubts.

One more and most important thing is consistency should be there while you are studying. I'm so happy that I'm part of LPF family. Dad provided the sessions. necessary things. books etc. time to time.

Thank you so much to all the Lila Poonawalla Foundation team for supporting us. Whenever you are going to attend the sessions. First you must have to read that chapter before then ask your doubts does make your own notes. That will also help you a lot.

I followed my consistency and achieved success. And i wished you all ger good mark in your exam. Please do as have said you. It will help you. Do study from bottom of your heart.

**All The Best To All !**

## “My experience of online and offline college”

The COVID-19 pandemic changed the way I learn, most of the things that used to seem impossible to me have now turned out to be possible. Online education allowed learning something beyond the norms. With the emergency and spread of COVID-19, online education reached at all level. Online classes were new to everyone at that time but known to everyone now.

When I first heard that I wanted to study online I was very excited and sometimes nervous too.

My experience of online learning during the coronavirus pandemic was good but, in the beginning, I had many questions in my mind like “How should I study...??” “How can I ask doubts...??” “How will I manage my studies...?? etc.”

Initially we found it difficult to attend classes as my classmates forgot to turn off their microphones during a session and we could hear a lot of noise, that was very disturbing. But with time all of us were able to adjust things. The professors in my class were great. They arranged each class in such a way that I did not face any disturbance later. I learned Korean language and Python programming which I always wanted to do. Online classes were necessary as a part of safety in times of pandemic, we had no option but to sit at home and listen to online classes.

During the online classes, the main challenge for me was to maintain the same level of discipline in my studies. Online classes were not suitable for all subject. It was suitable for theory-based subjects but we lack practice-based learning. We were not able to clear our doubts during online classes due to lack of time or poor network connections. Staying on the screen for a long time also affected my eyes and neck. Also, I faced problems related to the poor quality of the internet connection and it was stressful for me. I really missed physical class and interacting with my teachers and classmates.

Online learning gave opportunity to explore new digital learning tools and ultimately, I learnt to maintain discipline of self-study. It helped in inculcating the habit of self-discipline and time management, provided access to unlimited number of educational resources. I could set my own pace of learning. So in it was helpful in many ways as long as students had the right equipment and access to a proper internet connection.

How sad is it that my first day of college, in offline mode, is also one of the final days of my college life? That students of this generation have spent more than one-and-a-half years staring at screens in locked in their closed spaces.

During our recently started in-person classes I strongly felt that my attention span increased due to interactive sessions; positive competitions started among us which motivated better learning; professors started giving personal attention to each

student (Just imagine how helpful it would be that a teacher understands the pace of their students and teaches them accordingly to make the learning process much smoother); first time we worked on a major project for graduation under the guidance of professors which was not possible last year and now finally we have our own research papers ready with us and last but not the least we even went to our first ever field visit of graduation to High Altitude Cloud Physics Laboratory which is there in Mahabaleshwar in heavy rains. Offline classes made one thing clear that there are lot of basic concepts which were taught in pandemic but we are still unaware about them as we didn't study seriously ? which will haunt us till the time we don't make time and clear our basics.

Attending offline classes after such a long time brought back a whole lot of memories mixed with feelings of anxiety as to whether everything will be like before or not.

It was more exciting as I met and bonded with my batchmates outside the virtual classes. We matched faces with the names and started hanging out together. At first, I was a little doubtful about going back to offline mode after so long but eventually everything seemed so very natural. I realised in one month “virtual interaction can never make up for one-to-one meetings”.

The lockdown made me an owl. So, being a student of a morning college, attending the first class at 7:30 am, that too when winter is almost here, was indeed difficult. Probably it was the urge of enjoying the essence of college life. Despite back-to-back practical and theory classes, the 'Tea-Holics' among us discovered a nearby tea stall on the very first day itself. Initially, I found it troublesome to concentrate in class which was probably because of the habit of keeping multiple tabs open on phone during online classes, a habit that I surely have to do away with. In the last month, I not only found good friends but also discovered my favourite spot near the campus, where we friends have been spending time before and after college. In my college social distancing was not a problem since the classrooms are huge and the sections were divided into two shifts.

It was only one month in college but we lived them fully and felt very surreal. The fact that I have become senior from being a junior took some time to settle in. After the first year, we are again back on campus in our final year. Corridors do not buzz the same as before because of the pandemic restrictions. The canteens saw the little crowds and the classrooms were filled after 20 months. Offline classes provide a stimulating environment that combines both theoretical and practical aspects of learning, unlike online classes. This contributed overall cognitive and skill development. Practical learning helped for better understanding of subjects and adapt quickly to daily challenges.

## इंटरनेट शिवाय जीवन

मी सोप्यावर फोन बघत बसले होते आणि अचानक लाईट गेली आणि वायफायचं कनेक्शन बंद पडलं आणि माझा त्यात इतका संताप झाला की बास... मला राग आलाच आणि पुढच्या क्षणी शांतही झाला. मग थोडा विचार केला की जर नेट आपल्या जगात नसत तर...

तर माणसाला नाती जपणं हे नीट कळल असत. नेट वरच्या वाईट साई गोष्टीच झाल्या नसत्या आणि सायबर गुन्हे हे कधी नोंदलेच गेले नसते. पण नंतर असही वाटतं, जर नेटच नसत तर माणसाने कधीच चंद्रावर पहिलं पाऊल ठेवल नसतं.

इंटरनेटवर ज्ञानाचे इतकं भांडार आहे की नेटच जर बंद पडलं तर ज्ञानाचा प्रसारच थांबला असता जणू असे वाटते. कारण विद्यार्थीदशेत बघायला गेलं तर इंटरनेट नसत तर आज चांगल्या आणि होतकरू मुलांना मोफत शिक्षणच मिळाल नसत. मग पूर्वी प्रमाणेच राजाचा मुलगा राजा व शिपायाचा मुलगा शिपाईच होणार. आज कितीतरी मुलं इंटरनेटवर अभ्यास करून आय.ए.एस., आय.पी.एस., आय.आय.टी. मध्ये गेलेत. पण जर इंटरनेटच नसत तर चिखलातला हिरा चिखलातच राहिला असता.

इंटरनेटमुळे माणसे जोडून राहतात. खरय पण... जवळची नाती कधीच जोडली जात नाहीत. माणसाला नवनवीन कला शिकता येतील. इंटरनेटवर रीलस बनवण्यापेक्षा जीवनामध्ये जर इंटरनेटच नसेल तर आत्ताच्या घडीला माणूस हा अर्धवट आहे. माणूस भयान होऊन वागेल जगात आणि माणसाची प्रगती खुंटेल. आज कितीतरी अपंग म्हातारी माणसे घरबसून इंटरनेटवर विठ्ठलाची वारी करू शकतात. हि किती मोठी गोष्ट आहे... हे कळलं पाहिजे. आज इंटरनेटमुळे आपण दूरवरचा माणूस दूरच राहिला असता. पण एक गोष्ट आहे जर इंटरनेट नसत तर पत्र पाठवायला मज्जा आली असती. इंटरनेटवर मेल टाईप करून लिहिण्यापेक्षा स्वतःच्या हस्ताक्षरात कोऱ्या पानावर आपल्या जिवलगंसाठी पत्ते लिहायला मज्जाही तितकीच न्यारी आली असती. आत्ताच्या घडीला मुलांच काहीतरी भलतंच सुरू आहे. लहान मुलांना खातानासुद्धा इंटरनेटवरच्या व्हिडीओ बघायला लागतात... हे काय? मला वाटत, जर इंटरनेट नसते तर आई बाबा आणि मुलांच नात अधिक घट्ट झाल असतं आणि आपल्याला वृद्धाश्रमांची गरजच भासली नसती अस वाटत.

लहान मुलांना बाहेरच्या गोष्टींमध्ये रस वाटला असता. आज प्रत्येक मुल इंटरनेटवर गेम खेळत असत. जर इंटरनेट नसतं तर मला वाटत की आजकालची मुले आधिप्रमाणे पक्ष्यांसारखा किलबिलाट करून, घरासमोर भिरक्या घेऊन, मारामारी, खेळ खेळून दंगा केला असता. हा

विचार करूनच मनाला किती हसावसं वाटल... हो ना ?

माणसाला इंटरनेटसारखी झाडाची पण किमया कळाली असती जर तो इंटरनेटचा वापर नसता तर. मला काही ओळी सुचतायत की जीवन हे कसे आहे.

इंटरनेट असल्यावरही आणि नसल्यावरही.

जीवन जगावे मनासारखे,

इंटरनेट नसल्या शिवाय की असल्या शिवाय,

नाण्यासारखे दोन बाजूंचे हे जीवन,

इंटरनेट नसल्या शिवाय की असल्या शिवाय,

माणसाचे उडन पाखरू मन हे जसे,

घेतली असती का भरारी त्याने,

इंटरनेट नसल्या शिवाय की असल्या शिवाय,

इंटरनेट नाही हे त्याच्या मनासाठी जरी चांगले असेल तरी पण त्याच्या प्रगतीला इंटरनेटची साथ ही हवीच माणसाने ठरवले पाहिजे की इंटरनेट कसे वापरावे. आज कितीतरी लोक इंटरनेटवर आपलं पोट भागवतात. जर इंटरनेट नसतच तर आज आपल्या देशात किती लाचारी, गरीबी आली असती ह्याचा विचार करणं म्हणजे अंगावर काटा आल्याशिवाय रहात नाही. खरचं आजच जगणं किती अवघड आहे. इंटरनेटशिवाय... अस वाटतं की इंटरनेट नसतं तर आज आपण पूर्वीच्याच ठिकाणी असतो जिथे रुढी, परंपरा जपण्यासाठी, मनमोकळं जगण्यासाठी किती कष्ट करायला लागायचे. कितीतरी रुढी, परंपरा आणि गुन्हे हे इंटरनेटमुळे कमी झाले आहेत, पण माणुसकी तर संपतच चालली आहे ना? काय इंटरनेट माणसाला परत माणुसकी परत देऊ शकेल? ह्या प्रश्नाचं उत्तर आपण नक्कीच शोधलं पाहिजे अस मला वाटत. ह्या विषयावर अजुन दुजोरा म्हणून अक्षयकुमारचा '२.०' हा चित्रपट आपल्याला इंटरनेट आणि माणुसकी यातला फरक सांगतो.

खरच माणसाचं जीवन सुदृढ होतय का प्राणिमात्र खरच सुखी आहेत का ह्याचा विचार केला पाहिजे. खरच जर माणसाला इंटरनेट आणि माणुसकी यातला एक पर्याय निवडायला सांगितला तर तो कोणता असेल? ह्यावर खरच विचार केला पाहिजे!

## Life without Internet

What would everyday life be like if there was internet? we have gotten used to living online for Such a long time that staying offline permanently is Such an alien concept. This essay example explores the tough

question. "Is it possible to live without the Internet? And if it is, is it something we would want to experience in this generation?"

Let's face it the internet has become one of, if not the most important invention in the modern world. it is difficult to imagine how life would be in the absence of it.

As going Online has completely revolutionized Communication, it is possible to accomplish so many things online. There is something on the internet that everyone can benefit from. But believe it or not there are who have lived without wi-fi to this thought about what their the absence of going online, Simple and speedy communication would no longer ever exist Relaying and receiving messages would be a Slower, So business transactions would definitely be affected. People would have to resort to traditional Communication channels Such as telephones and Snail- mail. we all know how tedious these are. Business decisions will take longer to make and ordering and delivering Products will have longer lead times

Without the internet, digital media and marketing would no longer exist Again, marketers would have to go back to older means of Promoting products as direct marketing Holding meetings. go back to physical spaces as video conferencing will no

longer be possible without going online. Yes, all of these methods are of a much Slower pace, but Surlypeople would adjust They Were able to thrive using those methods in the past before the internet was born, so they can do it again.

In terms of relationships and Socialization. the non existence of the internet means the disoppearance of social media sites. Instead of Searching for and adding old acquaintances, People would have to go the longer route of checking the phone directory to find them keeping in touch with friends across the globe will people would rely on likely be as difficult, as Snail-mail to reconnect and have Conversations without social media keeping up with People's lives will be close to impossible. Having said that going online is a double-edged Sword while its pros and benefits are undeniable there is much to be said about negative exposure. Young People gain access to a host of data that may not be appropriate. Pornography is a profitable business, thanks to the WORLD WIDE WEB

# Sentiments

Good Afternoon Mom & Dad 🌹

We all are well and good. Hope mom and dad are healthy and fit. Thank

You so much for your wishes and blessings 😊

I'm so grateful that 🙏  
I'm a Lila Daughter

Yes, I'm pursuing in BBA and after that MBA. I have taken admission in St. Mira's College.

Just fees is pending. Actually No, I didn't thought about B.com because since very long. I'm interesting in management and Business.

I know that even B.com allow us for Business but there is more opportunities and ideas in BBA as compared to.

Once again Thank You 🌹

"YOUR LOVING SPIRIT HELPED ME FIND MY OWN" 😊

Mom's Smile & Dad's Pride 👑

Love you,  
Aaliya Joad  
Batch 2016

## Feedback From LILA Daughter on Training Programs

Riddhi Alurkar completed my class 10th this year. As a part of Lila Poonawalla Foundation I had recently attended many sessions after class 10th. There were many useful sessions like 'Career Guidance Session' which was conducted offline tend to be very important from the point of view of future career. We had attended online sessions like Wildlife (Birds), Bharatnatyam Dance Forms, Importance of Trekking which were very interesting. In the session of Wildlife (Birds) we had come to know about many types of birds, characteristics of birds, some popular books of Wildlife (Birds) as reference and many more. Also in the session of 'Bharatnatyam Dance Forms' we had come to know the history, origin of Bharatnatyam, types of dance, etc. Furthermore, in the session of 'Importance of Trekking' we had come to know types of trekking, benefits of trekking, safety measures, trekking as a career. Also there was an online session of 'How to draft an E-mail?' which is important in today's world. We had such sessions for making us understand the basics to higher knowledge which meant to be valuable in our career.

Name : Riddhi Alurkar,  
School Name : Camp Education Society's Viloo Poonawalla  
English Medium High School,  
Batch : 2018.

Dear Momdad,

My name is Pallavi Sharad Gawade Lila girl 2011. I hope you both are doing well. I had completed my graduation in aeronautical engineering from wingsss college of aviation and technology pune.

Right now I am in Air India, Mumbai for my training.

This training will ended on 25 July.

After that I'll coming in Pune for my further process.

And I got 84% in final semester. I'm very excited to meet both of you Momdad. When I finished my training I'll meet you as soon as possible. I miss you so much.

Lots of love from your lovely daughter.

Take care of your health ❤️ 😘

Thank you.  
Your daughter,  
Pallavi Gawade.

Dear Mom and Dad !

How are you? I hope you are doing well

Wishing you a happy parents day 💖💖

I pray for your happiness, prosperity and long lives.

Thank you for giving me the best life and for fanning my wings and being the strongest support, Mom and Dad.

Lots of love on Parents' Day.

May the almighty bless you both with the longest and the happiest life

Lots of love ❤️❤️❤️  
Anam Shaikh

## एक पहचान

छोड़ के अपना बसेरा,  
एक नए घर आती है,  
नए रिश्ते, नए लोग,  
अपने प्रेम से महकाती है,  
अपनी पहचान की  
एक नई दुनिया बनाती है।  
शक्ती है उस नारी की,  
हर दर्द हँस के सह जाती है ।  
नए रिश्ते प्रेम के भाव से अपनाती है ।  
फिर भी समाज की कुछ नजरे,  
उसे हर छोटी बात में दोषी ठहराती है ।  
बोलना, चलना, सब कुछ देखा जाता है ।  
फिर भी उसे सब कुछ देखा जाता है ।  
फिर भी उसे सब का मोह लग जाता है ।  
शक्ती है उस नारी में,  
हर दर्द सहने की,  
छोटी बात नही होती  
अपने घर से विदा लेने की ।

**Mrs. Najma Shaha,**  
Teacher-Camp Education Society  
Girls High School

## मेरी दुआ

खुदा की रहमत का क्या खूब नजारा है । हजारो बच्चियों के आप लीला माँम, फिरोज डॅड है ।  
आपकी जिंदगी जिंदादिली की बेहतर मिसाल है । जमीन पे खुदा ने भेजा हो जैसे आप फरिश्ता-बहार है ।  
दुआँ देते है, जिन्हे कई लोग दिलसे, ऐसे आप इन्सानियत की पहचान है ।  
आपकी नेकी की राह यूँही बरकरार रहे । फौंडेशन का यह परिवार ऐसेही आबाद रहे ।  
फले, फुले हो कामयाब हर बच्ची यहाँ पे, सारे जहाँ में फौंडेशन का नाम रोशन रहे ।  
तहेदिल से दुआ करते है कि आप उम्र दराज रहे ।  
उमदा सेहत और खुशहाल परिवार का प्यार रहै ।
